*SR-20 series is a **long-life reliable solution** for your needs. Its **robust aluminum design** and the **wide range of configurations** available makes it the perfect choice when great performance are required.*

SR-20

TECHNICAL SPECIFICATIONS

Category	Classic AGITATOR.
Windings	Single-phase motor. Insulation Class F.
Motor body	Extruded aluminium casing.
Protection	IP 44 ingress protection rating.
Safety	Built-in thermal motor protection system.
Ball bearings	NSK and SKF (long-life) self-lubricant bearings or equivalent, in semi-rigid noise-damping housings.
Motor shaft	AISI 303 INOX steel.
Fastening parts	INOX steel or corrosion-resistant materials.
Motor parts	Thermoplastic motor parts resistant to high temperature.
Cooling system	Air cooled agitator with a suction speed of 3,1 m/s.
Operation	Power supply 220-240 Volts - 24 hours a day non stop. Clean non drinkable water only.
Regulations	Complying with EN60335-2-41:2003/A2:2010 and WEEE/RoHs directives.
Note	Read the instruction booklet for correct set up and use. Designed for industrial use with CE certified cooler machinery only. Not intended for food contact.
